

**BECAUSE MONEY ALONE
WILL NOT GUARANTEE RETIREMENT HAPPINESS**

This book is the first step to ensuring that your retirement will be worthwhile and enjoyable. First, we went to the experts. Not to the self-proclaimed retirement experts, but to 450 retired teachers (your retirement mentors) who share their experiences, impressions and advice on retirement.

But that's not all. It also includes an exclusive self-help easy-to-follow workshop to replace satisfactions lost from work and thereby ensure that your retirement will be worthwhile and enjoyable. You will learn how to evaluate your future plans, assess alternative plans, create new plans, link lifestyle to financial planning, and much, much more!

DR. ALAN ROADBURG has more than 20 years experience in retirement lifestyle planning. He is a former university professor (Sociology), and his unique approach views retirement as a second career. This results in an entirely different way of planning for retirement that reflects the needs of today's retirees. Other publications in the Life After Work Series include *Re-tire With a Dash*, *Life After Medicine*, and *Life After Policing*.
